

Margarita Machine Agreement

I confirm that the margarita machine(s) I received is/are in proper working condition as demonstrated to me by delivery personnel. I also acknowledge that I have been informed of the phone number(s) I must call during the first TWO (2) HOURS of rental period if I have any questions about the operation of the equipment. I understand that any problem with equipment must be reported when the problem occurs, not at the end of the rental period or in multiple day rentals. The problem still has to be reported at the time of the problem to give the ability to correct the problem. In multiple day rentals, if a problem causes nonuse of the machine for that day and it isn't reported until the end of that day it will not be considered a problem day.

ALL PROBLEMS MUST BE REPORTED AT THE TIME THE PROBLEM OCCURS.

In addition, I confirm that I have been instructed to turn machine on **one hour before the event; to make sure machine is switched to the ON position (to the middle); that machine(s) are plugged into a 20 Amp 110 Volt Dedicated Circuit without any other appliances close by; and that I am to only use the extension cord provided.** Lastly, I have been informed to turn the machine **OFF** when empty. I have been instructed about the high current draw of the Soft Serve machines and that they have to be on a dedicated circuit. If a service call is called and found that the machine is functioning properly and the cause is an electrical load problem, **a \$50 charge will be assessed. There will be no refunds given for electrical load problems, only for machines that malfunction.**

Note: The renter and renter's party is responsible for theft and any damage (physical damage or mechanical damage caused by physical damage) while in your possession. Under no circumstances will the renter take apart or try to fix the machines and any damage that results from this action will be billed to the renter of the machine. We are not responsible for accidents or injury resulting from the consumption of alcohol during or following the use of equipment or products provided.

Important Notice: Damage of Mixing Jugs will cost \$20.00 per jug

Important Notice: Damage of Margarita Machine will cost \$2,000.00 or more

Important Information:

- Do not use extension cords unless provided
- Do not disassemble ANY parts of the machine
- Do not move the machine from the place of set-up.
- Do not use any other mix that is not supplied
- Please turn off machine when machine is empty

If you are not available at the time of Delivery or Pick-Up there will be a \$75 return trip fee (at pick-up the machine must be accessible). You will be charged for any missing parts, mixing jugs, etc.

What's a 20 Amp 110 Volt Dedicated Circuit? The electricity is the most important variable that the client supplies, "110 Volt " refers to the electricity in standard outlets. "20 Amp" refers to the size of the breaker that turns the outlet on and off at your breaker box. Breakers are individually labeled with their amperage. A 15 Amp breaker will not be sufficient. "Dedicated Circuit " means that there are NOT other large electrical appliances or heavy amperage draw items (microwave, air conditioner, refrigerator etc.) on the same breaker. These items takeaway electricity that the margarita machines need and could damage them, make them freeze slower, or not at all.

Address of Location: _____ **City:** _____

Time of Delivery: _____ **Date of Delivery:** _____

I have read and I agree to the contract terms on the front and back of this invoice, which constitutes our entire agreement. There are no oral or other representations not included herein.

Signature: _____ **Date:** _____

Staff Use Only:
